

Full Presentation Title

Optional Subtitle

Author Name

Instituto Juan Linz
Centro de Investigación y Postgrado en Ciencias Sociales

Month Year

Contents

- 1 Introduction
- 2 Data & Methods
- 3 Results
- 4 Conclusion

- First point about the research topic.
- Second point with supporting evidence.
- Third point leading to the research question.

Why this matters

- Reason one
- Reason two
- Reason three

Research Question

What is the relationship between X and Y in the context of Z?

- Data source description.
- Coverage: countries, years, variables.
- Sample size: $N = \dots$

Note

All data are publicly available from ...

Model specification

$$Y_{it} = \alpha + \beta_1 X_{it} + \beta_2 Z_{it} + \mu_i + \epsilon_{it}$$

- μ_i : country fixed effects.
- Standard errors clustered at the country level.

Main Results

Variable	Model 1	Model 2
X	0.32*** (0.08)	0.28*** (0.07)
Z		0.15** (0.06)
N	1,200	1,200
R^2	0.41	0.47

Table: Regression results. *** $p < 0.01$, ** $p < 0.05$.

Conclusion

- ① Key finding one.
- ② Key finding two.
- ③ Policy implication or future research direction.

Take-away

One sentence summary of the most important result.

Author, A. (2024). *Title of the work*. Journal Name, 10(2), 100–120.
